No 29B Inec Road
Kpansia, Yenagoa.
Bayelsa State
08064655310,
070544323
me@timiambaye.com

I am a passionate self-driven application developer for both web and mobile platforms. I am also an education lover, I love to teach and mentor new developers which in turn helps me improve and solidify basic concepts I have learned through the years.

Working with Andela as a volunteer in the Andela Learning Comunity, I have had the opportunity to mentor over 200 new developers in both front-end development and mobile development using Kotlin in the Google Africa Development Scholarship program from 2019, 2020, and 2021.

## WORK EXPERIENCE

**Mobile Flash Card App** — *Mobile application*

An app that helps students study by helping them store information in their long term memory

https://github.com/itstimiking/mobile-flashcards

**Would You Rather** — *Web application*

A web application where users can vote for or against a question asked and a pole is generated from all votes for all users

https://github.com/itstimiking/rather
